SJCS 2020 Summer School Course Offerings for Credit

The cost for each course is $400 billed to your school account.
Textbook purchase is on your own. (The HS textbook list is at the Students & Parents tab on the school website.)

<u>404 - Economics</u>   (Mr. Swingle)   For Rising Grades 10/11/12   ½ Credit
This one-semester course covers the basic principles and theories of economics. It also examines the practical application of these theories in contemporary society and government. Tax forms, personal budgeting, and a stock market simulation are all part of the course. One session offered.
Dates: In class, July 6-17, Mon-Fri 9:00 AM-1:00 PM; Online work between July 20-30; Final Project due July 31 (There is flexibility with the online weeks of lessons, but the project must be turned in on or before July 31.)

<u>408 - Government</u>   (Mrs. Carr)   For Rising Grades 11/12   ½ Credit
United States Government is a one-semester required history course that will examine the basic principles of our government: the workings of the legislative, the executive, and the judicial branches, and the sharing of power between the state and federal governments. A portion of the class is dedicated to discussion of current events and debate, as well as a further examination of constitutional principles as applied to today's issues. Students must remain current on national events. One session offered. The course will involve 2 weeks of in class lessons plus 2 weeks of online lessons.
Dates: In-class: June 9-12 (Tues-Fri., 9:00 AM-1:00 PM) <u>and</u> June 15-18 (Mon-Thurs, 9:00 AM-1:00 PM); On-line: 2 additional weeks (There is flexibility with the online weeks of lessons, but the project must be turned in on or before July 17.)
Due to the condensed time-frame of this class, it is critical for students to attend the 2 weeks of in-class sessions. There is flexibility with the on-line week of lessons, but the project must be turned in on or before July 17.

<u>901 - Computer Applications</u>   (Mrs. Collins)   For Rising Grades 9-12   ½ Credit
This is a one-semester required course that will focus on file management and different methods of data storage, both local and cloud-based. Software packages include Microsoft Word and Excel, as well as Google Docs and Sheets. In addition, the class will be introduced to basic HTML and CSS, Adobe Photoshop and Adobe Illustrator. Two sessions offered. Sessions may be combined if they have fewer than 10 students each.
Dates: June 3-19, Morning session 8:30 AM-12:00 PM <u>or</u> Afternoon session 12:15-3:45 PM
